

GLUCOSAMINE SULFATE is a nutrient used as a building block for cartilage. Pain relief can be felt within 20-30 minutes, with ongoing improvement over 2-4 weeks while continuing use. Although pain relief is initially slower than that achieved by NSAIDs (Non-steroidal anti-inflammatory drugs), glucosamine sulfate continues to improve joint flexibility and function, whereas NSAIDs may cause long-term cartilage damage, as well as side effects that may include bleeding of the stomach and intestines, and liver damage.

PREGNENOLONE is the precursor to all other steroid hormones. It seems to have a potent anti-inflammatory capability.

GINGER EXTRACT* stimulates circulation. It is a strong antioxidant and effective antimicrobial agent.

VITAMIN E (D-Alpha Tocopherol) is a potent natural fat-soluble antioxidant and preservative. It is used in creams to protect from oxidation.

MSM (METHYL SULFONYL METHANE) is an abundant component in normal cell composition which functions to increase the permeability of cell membranes to allow for better absorption of nutrients. **OE Joint Pain Formula-Inflammation** contains the maximum amount of MSM available in a cream.

GRAPE SEED EXTRACT is an antioxidant and a natural preservative.

OLIVE LEAF EXTRACT promotes permeability in the skin to allow for better penetration of nutrients.

ROSEMARY EXTRACT is used for purifying and toning as well as antimicrobial and analgesic activity. It is non-irritating and non-sensitizing.

EMU OIL has been traditionally used in Australian aboriginal preparations to relieve pain and inflammation.

SHARK OIL has anti-inflammatory qualities and is in our Inflammation Formula only.

*Certified Organic Herb

DIRECTIONS FOR SHORT TERM PAIN RELIEF FROM INFLAMMATION.

APPLY OE JOINT PAIN FORMULA-INFLAMMATION ONLY AS NEEDED, DIRECTLY TO THE PAINFUL OR INFLAMED AREA. PLEASE NOTE THAT JOINTS COVERED BY MORE TISSUE (BACK, KNEES, SHOULDERS AND HIPS) WILL NEED MORE FREQUENT APPLICATIONS.

Anyone who has used either **OE Joint Pain Formula** has experienced the initial pain relief. The anti-inflammatory ingredients provide safe and almost immediate pain relief. The anti-inflammatory combinations in the **OE Joint Pain Formulas** are effective pain relief alternatives to non-steroidal anti-inflammatory drugs (NSAIDs), which mask the pain temporarily, and can cause other side effects. Either of the **OE Joint Pain Formulas** can be safely used for aching muscles, inflammation, stiff joints, sprains and many minor aches and structural discomforts.

This product is not intended to diagnose, treat, cure or prevent any disease.

OE JOINT PAIN FORMULA-ARTHRITIS

Organic Excellence Joint Pain Formula-Arthritis contains glucosamine sulfate combined with the anti-inflammatory benefits of pregnenolone, ginger, and Emu Oil. **OE Joint Pain Formula-Arthritis** can provide pain relief to sufferers of osteo-arthritis and mild inflammatory conditions.

INGREDIENTS:

GLUCOSAMINE SULFATE is a naturally occurring substance formed from glucose. Glucosamine Sulfate is the preferred form of glucosamine and works at both relieving pain and stimulating healing. It provides the raw materials used by the body to make cartilage and connective tissue that, in turn, help to provide cushioning and lubrication for each of the body's joints.

PREGNENOLONE is a natural hormone derived from the Mexican Wild Yam Root to yield the identical Pregnenolone produced by the human body. As mandated by the Dietary Supplement Law of 1994, Pregnenolone is classified as a food derivative, and therefore, available to the general public without a prescription.

GINGER EXTRACT* is a natural herb that possesses many therapeutic properties, the most relevant to arthritis sufferers, particularly those with rheumatoid arthritis, is its ability to inhibit inflammation and bring immediate relief from pain.

STEARIC ACID is a waxy, fatty acid found in cocoa butter. Used as an emollient and base in cosmetics.

MSM (METHYL SULFONYL METHANE) is the fourth major abundant mineral in our body. It is used for normal cell composition that functions to increase the permeability of cell membranes to allow for better absorption of nutrients. MSM also acts as an anti-

inflammatory and provides pain relief. There is only a small amount of MSM in **OE Joint Pain Formula-Arthritis cream**.

GRAPE SEED EXTRACT is considered an antioxidant and natural food grade preservative.

EMU OIL is the greatest skin emollient in the world with deep skin penetration properties better than any other natural oil. During the past decade of clinical use, the benefit of Emu Oil on joints to reduce pain, swelling and stiffness is most evident where the joint is close to the skin surface, such as the hands, feet, knees, elbows, and back.

OLIVE LEAF EXTRACT* has anti-inflammatory and anti-microbial properties externally.

SOYBEAN OIL an emollient that provides a softening and soothing effect on skin tissue.

GLYCERINE is a plant derived moisturizer and humectant. It replaces moisture in the skin.

VITAMIN E is considered the most important oil-soluble antioxidant and creams to protect from oxidation.

CHAMOMILE EXTRACT* is an anti-inflammatory. It is used topically to relieve aches and pains.

THYME EXTRACT* is a natural anti-microbial.

ROSEMARY EXTRACT* is a natural food grade preservative.

*Certified Organic Herb

DIRECTIONS FOR A LONG TERM INCREASE IN JOINT MOBILITY DUE TO OSTEOARTHRITIS.

APPLY 1/4 TEASPOON OF OE JOINT PAIN

FORMULA - ARTHRITIS THREE TIMES PERDAY TO THE MOST PAINFUL AREAS. USE 2 JARS (2 OUNCES) PER MONTH FOR THE FIRST 4 MONTHS, THEN CUT BACK TO ONE JAR PER MONTH THEREAFTER.

Glucosamine Sulfate is the ingredient in **OE Joint Pain Formula-Arthritis** that provides the long term benefit of increased joint mobility that has been diminished by osteoarthritis. For osteoarthritis, consistent usage of **OE Joint Pain Formula-Arthritis** will provide the long-term benefit of increased joint mobility. If used only for periodic pain relief, improvement of the osteoarthritic condition will be temporary. The Glucosamine Sulfate in **OE Joint Pain Formula-Arthritis** provides the raw material the body needs to make cartilage and connective tissue. When used as directed for osteoarthritis, **OE Joint Pain Formula-Arthritis** will provide the cushioning that joints need to allow the return to an active life style. This process will take about 4 months.

OE JOINT PAIN FORMULA-INFLAMMATION

Organic Excellence Joint Pain Formula-Inflammation contains glucosamine sulfate combined with the anti-inflammatory benefits of pregnenolone, ginger, the maximum amount MSM available in a cream, Emu Oil & Shark Oil. **OE Joint Pain Formula-Inflammation** can provide fast pain relief to injuries and other inflammatory conditions (within minutes in most cases).

INGREDIENTS:

PURIFIED WATER provides moisture and lubrication.

NATURAL GLYCERINE is a humectant that attracts and retains moisture.

SOYBEAN OIL provides moisture and skin softening.
